The Epworth League Convention next Tuesday and Wednesday will likely be the largest gathering of people for the town. Besides the 250 delegates for whom entertainment is provided by the Methodist Church and their friends, excursions will be run on Wednesday which will bring hundreds more. We have room to announce only a few features of the excellent program that has been arranged for the occasion.

The Centennial hour Tuesday 2:30 p. will be of great interest.

Until war was declared with Spain very few people had any idea of the number of submarine cables that were in existence. Whenever the American fleets have nothing else to do they cut a few cables. This thing has been continued until the average reader has begun to think the bed of the Atlantic was covered with a net work of cables. There are at least ten cables from the old world to this country and one from Spain to South America.
